

Update 1.2.2

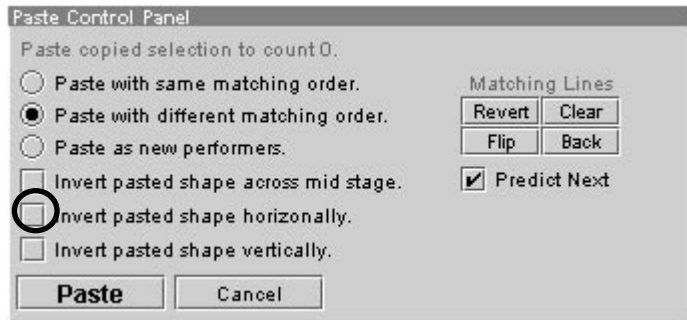

- ◆ **Performer Perspective Printing**
- ◆ **Inverted paste across mid stage**

for Win 95 or greter and Mac OS X

New Feature Guide

Invert pasted shape across mid stage

This function mirrors the pasted shape across the middle of the field or the 50 yd line

Performer Perspective Printing (reverse view)

This function allows you to print charts in the performers perspective or in a reversed view.

Mark center of performer locations

This option marks the center of the position on the printout to show where the performer stands
